PRESENTATION DEVELOPMENT

The following guidelines are recommended for proper presentation viewing:

- PowerPoint capabilities only
- 16:9 ratio
- 28pt minimum font for text
- 32pt minimum for bullet point slides
- No more than 3 main bullet points per slide; max 6 including sub-bullets
- Use contrasting colors for font and background
- No images used as a background
- 1 large or 2 medium sized graphs per slide
- 1 slide per minute of allotted presentation duration

Be sure to confirm the duration of your presentation with your session chair or with Melanie at mconner@CompassGroupPartners.com.

Videos included, and their functionality within the presentation, are the responsibility of the presenter.

Due to the strict agenda of this conference, we must adhere to the meeting schedule. For your convenience, a speaker timer will be available. After your allotted time is up, your microphone will fade, and music will start to play. We appreciate your assistance in helping us maintain the conference schedule.

For your convenience, we have created a PowerPoint Template to use when developing your presentation. Please note that you are **not** required to use this template.
